

34767 Architecting on AWS

Overview

Architecting on AWS is a 3-day course that will teach you to design scalable, elastic, secure, and highly-available applications on AWS. It is targeted at Architects and anyone wanting to understand AWS services in more depth.

Audience

Solution Architects

Solution Design Engineers

Skills Gained

- Make architectural decisions based on the AWS-recommended architectural principles and best practices
- Leverage AWS services to make your infrastructure scalable, reliable, and highly available
- Leverage AWS managed services to enable greater flexibility and resiliency in an infrastructure
- Make an AWS-based infrastructure more efficient in order to increase performance and reduce costs
- Use the Well-Architected Framework to improve architectures with AWS solutions

Prerequisites

- Working knowledge of distributed systems
- Familiarity with cloud computing concepts
